

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

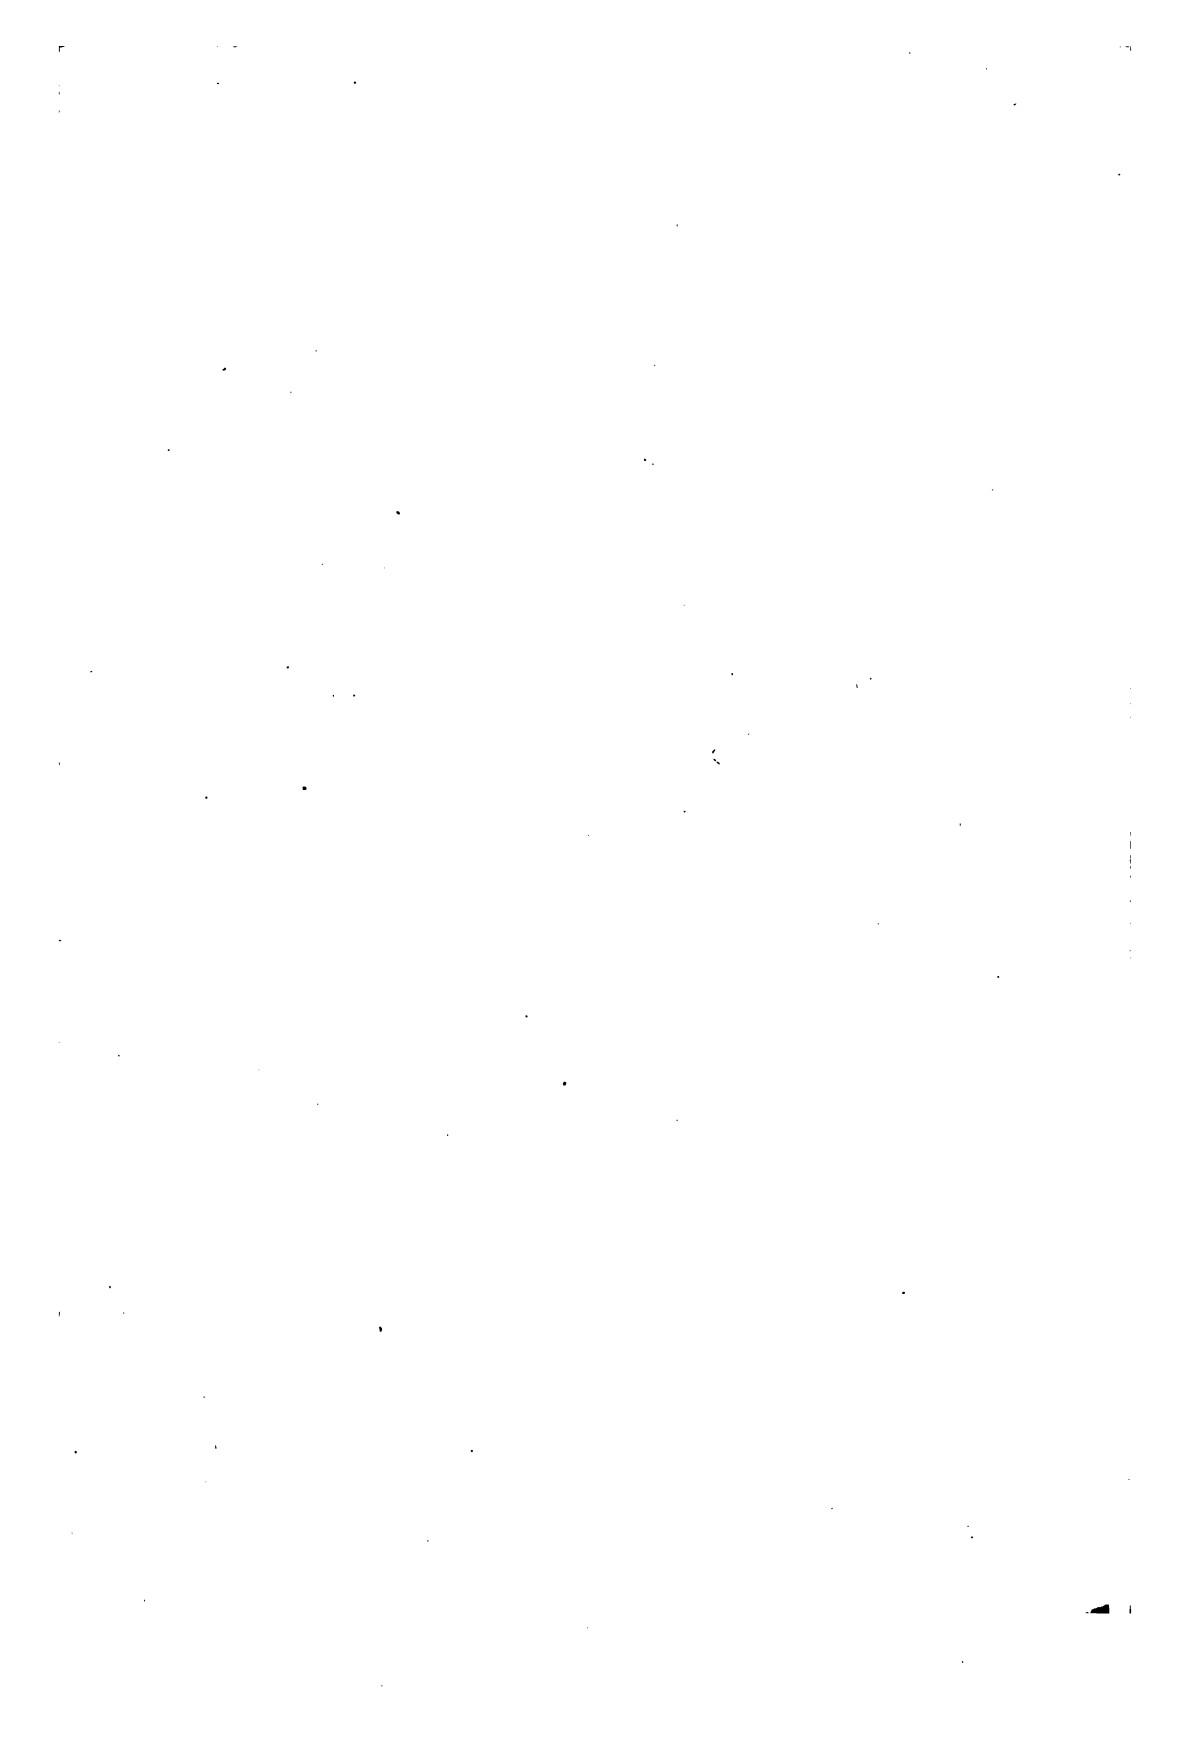

We also ask that you:

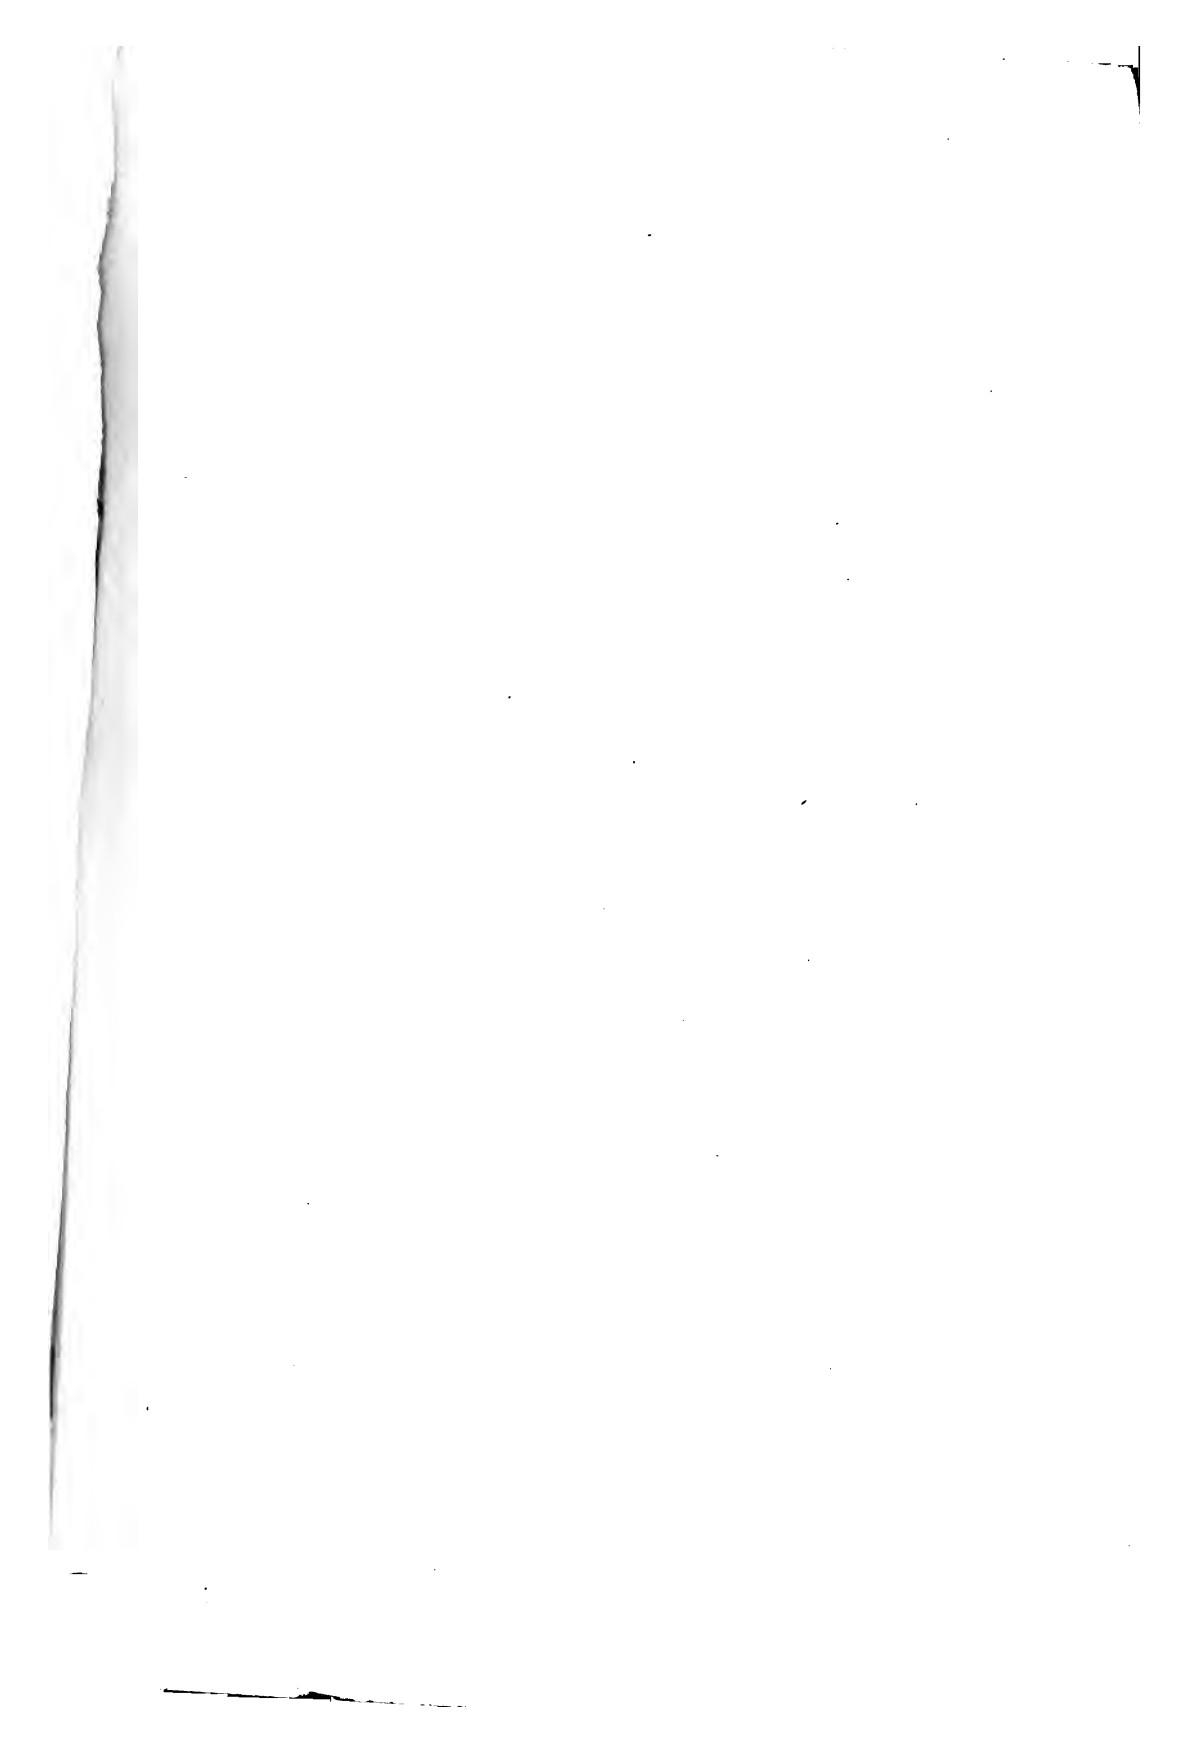

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

## REPORT OF SECRETARY OF STATE.

STATE OF ILLINOIS,  
DEPARTMENT OF STATE.

SPRINGFIELD, October 1, 1896.

*His Excellency, JOHN P. ALTGELD, Governor:*

SIR:—I have the honor to submit to you my second biennial report.

Also, a statement of all fees received by me and paid to the State Treasurer, from October 1, 1894, to October 1, 1896, and such other matters as are required by law.

The law requires the Secretary of State to make semi-annual reports to the Governor on the first days of April and October in each year. A statement of the semi-annual reports since my last biennial report is as follows:

From October 1, 1894 (being the date of my last biennial report), to April 1, 1895, I received fees as follows:

Corporations .....	\$28,108 78
Notarial commissions.....	1,896 15
J. P. and P. M. commissions.....	26 00
Miscellaneous fees.....	1,709 69
Anti-Trust affidavits.....	3,981 05
County officers.....	551 00
Total.....	\$36,272 67

I paid the above amount to the State Treasurer April 1, 1895.

For the six months ending September 30, 1895, I received fees as follows:

Corporations .....	\$34,710 42
Notarial commissions.....	1,982 22
J. P. and P. M. commissions.....	421 00
Miscellaneous fees.....	4,721 94
Anti-Trust affidavits.....	10 00
Total.....	\$41,845 58

I paid the above amount to the State Treasurer October 1, 1895.

For the six months ending March 31, 1896, I received fees as follows:

Corporations .....	\$72,527 35
Notarial commissions.....	2,217 70
J. P. and P. M. commissions.....	57 00
Miscellaneous fees.....	10,834 45
Anti-Trust affidavits.....	3,834 50
Total.....	\$89,471 00

I paid the above amount to the State Treasurer April 1, 1896.

For the six months ending September 30, 1896, I received fees as follows:

Corporations .....	\$43,118 07
Notarial commissions.....	1,806 80
J. P. and P. M. commissions.....	419 00
Miscellaneous fees.....	5,175 80
Total.....	\$50,519 67

I paid the above amount to the State Treasurer October 1, 1896.

Total amount of fees received and paid to the State Treasurer for the two years ending September 30, 1896, \$218,108.92.

I have also received during the last two years the sum of \$735.00 for rent on the dwelling house owned by the State, and have paid the same to the State Treasurer.

#### RECAPITULATION.

The total amount of fees and rent received by me and paid to the State Treasurer since assuming the duties of office, January 11, 1893, up to and including the 30th day of September, 1896, is as follows:

Corporations.....	\$247,205 14
Notarial commissions.....	14,466 96
J. P. and P. M. commissions.....	4,799 00
Miscellaneous fees.....	28,219 00
County officers' commissions.....	551 00
Anti-trust affidavits.....	12,556 81
Rent.....	1,435 00
Total.....	\$309,232 90

#### CORPORATIONS.

Up to the date of this report 36,230 corporations of all kinds have been organized under different acts of the legislature, principally however under the general incorporation act of 1872. 9,118 corporations have been formed since I assumed the duties of office.

The foregoing tables show an immense increase in receipts from corporations. This is accounted for from the fact that the last General Assembly passed a law increasing the fees; said law is in the words and figures following:

III

"SECTION 1. *Be it enacted by the People of the State of Illinois, represented in the General Assembly,* That all companies and corporations hereafter organized under the laws of the State of Illinois, shall pay to the Secretary of State, before there shall issue a certificate of incorporation to the same, fees as follows: All companies having a capital stock of \$2,500 and under shall pay the sum of \$30, and all companies having a capital stock of over \$2,500 and not over \$5,000 shall pay the sum of \$50, and all companies having a capital stock of over \$5,000 shall pay in addition to the said sum of \$50 the sum of \$1 for each \$1,000 of capital stock over \$5,000. All companies at present organized and doing business under the laws of this State, that may hereafter increase their capital stock, shall pay as a fee, in addition to all other fees at present required by law, the sum of \$1 for each \$1,000 of increase of such capital stock: *Provided*, that this act shall not apply to corporations incorporated under the law providing for the incorporation of homestead associations and building and loan associations, nor to religious associations, nor to corporations not for pecuniary profit.

"§ 2. It shall be unlawful for any company to do business, assuming to be incorporated under the laws of this State until the fees provided for in section one (1) of this act shall have been paid to the Secretary of State.

"§ 3. All acts and parts of acts in conflict with the provisions of this act are hereby repealed."

The receipts from corporations under the operation of said law from October 1, 1895, to October 1, 1896, was \$115,645.42.

The effect of said law is to produce a large revenue for the State and at the same time to prevent the incorporation of fraudulent concerns. Only *bona fide* concerns will now pay the fee and incorporate.

Exceptions have been taken by some corporations to my construction of the fee law above quoted.

The Columbia Construction Company, of Chicago, Ill., a corporation organized under the laws of this State, increased their capital stock from \$2,000,000.00 to \$5,000,000.00, and forwarded certificate of increase to this office for filing, and tendered the former fee of \$1.00

I refused to file the certificate, holding that, under the law, a fee of \$1.00 for each \$1,000.00 of increase was due.

Said corporation refused to pay the fee and brought mandamus proceedings in the Supreme Court to compel me to file said certificate at the old fee.

The Supreme Court, at its January term, held at Springfield, Ill., decided the case, sustaining my position.

The following is the decision of the Court, in full:

ORIGINAL PETITION FOR MANDAMUS.

Patton, Hamilton & Patton, for petitioner.

Palmer, Shutt, Drennan & Lester and O. P. Thompson, for defendant.

Mr. Justice Phillips delivered the opinion of the Court:

This is an original proceeding in this court by the relator, for a mandamus, directed to the defendant, as Secretary of State, to compel him to file a certificate of increase of the capital stock of the relator.

It appears from the petition, the relator was a corporation organized under the laws of this State, with a capital stock of \$2,000,000.00, prior to the first day of July, 1895, with its principal office in the city of Chicago. On or about the 15th day of July, 1895, a special meeting of the stockholders of that corporation was held at its principal office to submit the question of increasing its capital stock to \$5,000,000.00, and, that proposition being submitted, by a vote of its stockholders the increased capitalization was carried, and affidavit and certificate, in pursuance of law, made and presented to the defendant, the Secretary of State, and there was tendered therewith the sum of \$1.00 and demand made that such certificate, under the corporate seal, increasing the capital stock of that corporation from \$2,000,000.00 to \$5,000,000.00, should be filed. The defendant stated the legal fee was \$3,001.00, and demanded payment of the same before filing the certificate. This the relator refused, and presents this petition for mandamus to compel the filing of the certificate, etc. The defendant interposed a demurrer.

The offer of the relator to pay \$1.00 at the time of tendering the certificate, was in accordance with the law as it stood prior to July 1, 1895. By an act entitled "An act regarding fees for the incorporation and the increase of capital stock of companies and corporations in this State," approved June 15, 1895, it is provided:

"Sec. 1. Be it enacted by the People of the State of Illinois, represented in the General Assembly, that all companies and corporations hereafter organized under the laws of the State of Illinois, shall pay to the Secretary of State before there shall issue a certificate of incorporation to the same, fees as follows: All companies having a capital stock of \$2,500.00 and under shall pay the sum of \$30.00; and all companies having a capital stock of over \$2,500.00 and not over \$5,000.00, shall pay the sum of \$50.00; and all companies having a capital stock of over \$5,000.00 shall pay in addition to the said sum of \$50.00 the sum of \$1.00 for each \$1,000.00 of capital stock over \$5,000.00. All companies at present organized and doing business under the laws of this State, that may hereafter increase their capital stock, shall pay as a fee, in addition to all other fees at present required by law, the sum of \$1.00 for each \$1,000.00 of increase of such capital stock: Provided, that this act shall not apply to corporations incorporated under the law providing for the incorporation of homestead associations and building and loan associations, nor to religious associations, nor to corporations not for pecuniary profit.

"Sec. 2. It shall be unlawful for any company to do business, assuming to be incorporated under the laws of this State, until the fees provided for in section one (1) of this act shall have been paid to the Secretary of the State."

By the third section all inconsistent acts are repealed.

The contention of the relator is, that under the provisions of this act any corporation existing at the time the act went into effect, desiring to increase its capital stock, was compelled to pay one dollar for each \$1,000 of increase, whilst companies organized since the passage of the act were compelled to pay only one dollar for an increase of capital stock, regardless of the amount of the increase, and it is insisted such legislation, whether applied to corporations or persons, would be class legislation, not uniform, and therefore unconstitutional and void. We hold this is a misconception of the effect of the act. From the title of the act it is apparent the purpose was to derive a revenue by requiring certain fees to be paid by corporations on becoming incorporated, and also certain fees for an increase of capital stock. In construing an act it is a principle of interpretation that the object must be borne in mind, and language susceptible of more than one construction should receive that which will effect its purpose rather than defeat it. (Anderson v. Chicago, Burlington & Quincy Railroad Co., 117 Ill., 26.) A presumption is always indulged in favor of the constitutionality of an act, and that construction will be adopted which will sustain the act where the language used will permit such interpretation. (Newland v. Marsh, 19 Ill., 376.) In construction words may be restricted or enlarged, according to the intent with which they were used, and their meaning as used may be gathered from the purpose of the enactment. (Castner v. Walrod, 83 Ill., 171; Cruse v. Aden, 127 id., 231.) And when necessary, that which is implied as well as

that which is expressed may be held to be included within a statute. (Potter's Dwarris, 145.) This act provides that all companies or corporations hereafter organized under the laws of this State shall pay to the Secretary of State, before there shall issue a certificate of incorporation to them, certain prescribed fees. This portion of the act has reference to the collection of fees from incorporations thereafter effected. The act then provides that "all companies at present organized and doing business under the laws of this State, that may hereafter increase their capital stock, shall pay as a fee," etc. The inquiry presents the question as to the meaning of the term "at present organized."

In Holdom v. A. O. U. W., 159 Ill., 619, we quote the following with approval (p. 626): "Knowledge of the settled maxims and principles of statutory interpretation is imputed to the legislature. To the end that there may be certainty and uniformity in legal administration, it must be assumed that statutes are enacted with a view to their interpretation according to such maxims and principles. When they are regarded the legislative intent is ascertained."

The legislature of this State, by the provisions of chapter 131 of the Revised Statutes, declared certain rules for the construction of statutes then in force or that might be thereafter enacted, and by the first and second subdivisions of section 1 of that chapter it is provided: "First, all general provisions, terms, phrases and expressions shall be liberally construed, in order that the true intent and meaning of the legislature may be carried out; second, words in the present tense include the future." The legislature having declared these among other rules of construction of statutes, in the enactment of the law now under discussion, must be considered as having used the language contained therein with knowledge of the principles of statutory construction and interpretation as adopted by the courts and declared by legislation. The term "at present organized" they used as inclusive of present and future organized incorporations. By this declared method of construction the interpretation must be the same as if the language used had been "all companies at present organized and doing business under the laws of this State or that may be organized in the future, that may hereafter increase their capital stock, shall pay," etc. This construction necessarily results from the provisions of this act considered in connection with the provisions of chapter 131, no distinction being made between corporations at present organized or that may be organized in the future. The same fees for increase of capital stock would, by this act, be required from each. The contention of the relator is in direct conflict with the necessary and reasonable construction.

The demurrer is sustained. The writ is denied.

Writ denied.

The Chicago Gas Trust also brought mandamus proceedings in the Supreme Court to compel me to file articles of consolidation consolidating the different companies composing the trust.

I refused to file the articles, holding that under the law only two corporations could consolidate.

This case is now pending.

The last General Assembly passed a law enabling corporations to voluntarily dissolve.

Quite a number of corporations, not in active business, have availed themselves of the provisions of said law, dissolved and surrendered their charter.

The anti-trust laws have been fully observed and affidavits sent to all corporations organized under the laws of this State and corpora-

tions doing business in this State, as far as obtainable, each year, as provided by law.

Reports have also been made to the Attorney General of all corporations that failed to file the required affidavit.

### EXECUTIVE DEPARTMENT.

During the last two years commissions have been issued as follows:

To notaries public.....	7,902
To justices of the peace and police magistrates.....	923

I repeat the suggestion made in my former report, that the fee for issuing commissions be increased.

### INDEX DEPARTMENT.

The adjournment of the Thirty-Ninth General Assembly left the Index Department with the usual work of preparing and comparing for the public printer copies of the laws enacted at that session, editing, superintending the printing of and preparing headnotes and an index for the printed volumes of the session laws, together with a table of contents, indexing and placing on the permanent files of the Department of State, as of record, the enrolled and engrossed laws, supervising the copying for the public printer of the journals of the Senate and House, and comparing the same with the original when so copied, superintending the printing of and making indices for these journals, and the classifying and filing away among the archives of the State the bills, resolutions and other papers and documents delivered to the department, as required by law, by the clerks of the Senate and House.

This was in addition to the routine work of making certified copies of the records as required from time to time, of receiving and classifying at the end of each month the records that had accumulated in the Executive Department, and of conducting a multitudinous correspondence upon subjects that not only fall within the jurisdiction of this department, but that do not seem to lie properly within the scope of the duties of other departments.

The Index Department also has charge of the administration of the election laws, of compiling and publishing the election returns, of preparing the canvass of the votes and of entering upon the records of the Department of State the results of the election, and during the last two years an unusual number of special elections, together with the still apparent novelty of the act of June 22, 1891, known as the Ballot Act, has added to the responsibility of this work.

In the last biennial report of this department attention was called to the condition of the State records of cities, villages and towns, then in an incomplete and chaotic condition. The act of 1872 under

which municipal corporations were incorporated, had not been properly complied with in a multitude of cases there referred to, and even in those cases where an attempt to observe the law had been made, it was often productive of no good results, owing to the double construction of which the section under which transcripts of records in the matter of such incorporations was capable. In that report it was suggested that no remedy could be had until the law was amended, and it was recommended that section 13, of article 1, of the act be amended, so as expressly to fix the time in which the transcript of record in the matter of the organization of a city or village under the said law is to be filed in this office, and that it be made obligatory upon the authorities of such cities or villages to have endorsed upon such exemplifications the certificate of the recorder of the county in which such city or village is located showing that a copy of the said record duly certified had been with him filed and by him recorded within the time prescribed by law.

Accordingly a bill was prepared by the Index Department and by Mr. Shanahan introduced in the House of Representatives of the 39th General Assembly. It was passed by both houses and receiving the approval of the Governor on June 7, 1895, became, on July 1, 1895, a law. This act amended section 13 of the act of 1872 by compelling municipalities organized under that law to file a transcript of record with the recorder of the county in which such municipality is situated within three months after its organization, and directs the recorder to indorse thereon his certificate of such recordation and then to transmit it immediately to the Secretary of State, who was thereupon required, if the record appeared to be in due form, to charter the municipality.

This statute was found to remedy the evil which had theretofore existed, by preventing the intolerable delay in reporting to the Secretary of State the municipalities which he was expected to recognize, and definitely pointing out when transcripts were presented to him, his duties in the premises. The records have been largely cleared up, and to-day are to be found in a convenient and readily accessible form, the names and dates of organization of those cities, towns and villages incorporated by special acts prior to the new constitution of 1870 having been entered in one book, and those organized since, under the general act of 1872, in another. Of the 148 villages which, although there was no record evidence of their due incorporation under the law, were nevertheless presuming to exercise corporate powers, and which were reported in the last biennial report, 39 have since complied with the law, so far as they may now do without beginning incorporation proceedings *de novo*, leaving the following villages reported by the county clerks of the counties in which they are located as being in existence, unrecognized by this department as duly incorporated under the law, owing to their failure to comply with the section of the general act heretofore so frequently referred to:

It is again respectfully recommended that increased appropriations be made by the legislature for the publication and distribution of public documents. The requests for copies of the laws are continually multiplying, and can be complied with only by preparing certified copies of the enrolled acts, the expense attached to which is such that many do not feel justified in sustaining it. The laws relating to fish and game, drainage, corporations, roads and bridges, and numerous other subjects, are incessantly called for, and, with satisfaction to a large portion of our citizens, continually could be utilized, while there seems to be no valid reason why the State should not be prepared to supply any one desiring to examine the letter of the law with copies of any and all the acts of its legislature.

## ILLINOIS STATE LIBRARY.

The whole number of volumes added to the Illinois State Library, since issuance of last biennial report, is 2,107.

Of these, 541 volumes are government publications, and 769 volumes are documents received from other states on the system of state exchange.

Presentations to the library have been as follows:

Report of the American Bar Association, by the association.

Report of the State Bar Association, by the association.

Report of the Forty-Fourth Meeting of the Illinois Medical Association, by the association.

Report of the Thirty-Eighth Meeting of the Masonic Veteran Association, by the association.

Wharton's American Diplomatic Correspondence, in five volumes, presented by United States Senator Shelby M. Cullom.

Through the kindness and courtesy of Hon. William M. Springer and Hon. James A. Connelly, members of Congress, the State Library has been made a Congressional Depository, thus making it possible to secure the government documents that are needed in the State Library for reference directly from the superintendent at Washington.

The shelf room is becoming scarce and crowded, this is especially true of the reference department.

The card catalogue is complete up to date, and a number of sets of bound periodicals have been filled by purchasing the back numbers.

Numbers of students now come from other points in the State to consult the reference department, and the reading-room records show an increase of fifty per cent. in the patronage of the library in the last two years.

#### MILITARY TITLE.

One of the valuable additions made to the State Library during the past year is the original order of Count Laussat, Colonial Secretary of France, to General DeLassus, to deliver the territory of Louisiana and Illinois to Captain Amos Stoddard of the United States Artillery, being in fact the military title to the territory named.

#### NEW STATE CONTRACTS.

Pursuant to law, and in accordance with the advertisement for proposals for State contracts, published in a daily paper in each of the cities of Springfield, Chicago, Peoria, Quincy and Cairo, the Commissioners of State Contracts did, on Tuesday, September 8, 1896, in the presence of the Governor, proceed to open the bids which had been received and filed for the various State contracts, and to make awards therefor, as follows:

#### PRINTING.

There were six bids received and filed by the following: Ed. F. Hartman, Phillips Bros., H. W. Rokker, Talbott & Hamann, Thomas Rees and J. C. Hughes,

#### AWARDS.

**First Class:** Awarded to H. W. Rokker. Price—Plain, 15 cents; press work, 1 cent per one hundred impressions. Folding, stitching and trimming bills, 6 cents per hundred pages.

**Second Class:** Awarded to Phillips Bros., at the following prices: Rule and figure work,  $43\frac{3}{4}$  cents; plain, 1 cent; press work, per one hundred impressions, 1 cent.

**Third Class:** Awarded to Talbott & Hamann. For printing, stitching, ruling, indexing and binding election registers,  $2\frac{1}{4}$  cents each.

**Fourth Class:** Awarded to Phillips Bros. Plain, 1 cent; press work, per one hundred impressions, 2 cents; ruling, per one hundred sheets, each line, etc., 10 cents; padding, per pad, 2 cents.

### BINDING.

There were five bids received for doing the State binding, which were filed by the following named persons: Phillips Bros., Enoch Paine, H. W. Rokker, E. F. Hartman & Co., and Buckhardt, Holzworth & Lauer.

The contract was awarded to H. W. Rokker, he being the lowest bidder in the aggregate, at the following prices:

**First class**—Per volume, irrespective of the number of pages therein, 10 cents.

**Second class**—Per volume, irrespective of the number of pages therein, 10 cents.

**Third class**—Per volume, irrespective of the number of pages therein, 6 cents.

**Fourth class**—Per one hundred pages, aggregate count, 2 cents.

**Fifth class**—Plain blank books, extra Russia bands, \$6; plain Russia bands, \$1; three-quarters binding, \$1; half binding, \$1; quarter size, check book style, 10 cents; quarter size, half binding, 75 cents; quarter size, full morocco, 10 cents.

Blank books, printing headings and binding, extra Russia bands, \$12; plain Russia bands, \$2; three-quarters binding, \$7; half binding, \$5.

Blank books, full pages, printing and binding, extra Russia bands, \$12; plain Russia bands, \$1; three-quarters binding, \$1; half binding, \$1.

For paging blank books, any size or style, each 50 cents.

For putting side title on blank books, any size or style of book, each 20 cents.

For indexing or alphabetizing blank books, any size or style, each 20 cents.

. For half binding, check book sizes, 100 pages or less:

One to page, plain, 10 cents; printed, \$1.

Two to page, plain, 15 cents, printed, \$1.

Three to page, plain, 20 cents; printed, \$1.

Four to page, plain, 25 cents; printed, \$1.

Five to page, plain, 30 cents; printed, \$1.

For check book style binding, 100 pages or less:

One to page, plain, 5 cents; printed, \$1.

- Two to page, plain, 10 cents; printed, \$1.
- Three to page, plain, 15 cents; printed, \$1.
- Four to page, plain, 20 cents; printed, \$1.
- Five to page, plain, 25 cents; printed, \$1.
- For binding books for State library, per volume, library style, 10 cents; half roan, 10 cents; half morocco, 75 cents; full morocco, \$1; half calf, 10 cents; full calf, 10 cents.
- For binding in full law sheep, per volume, 70 cents.
- For binding geological and natural history reports, and similar work, per volume, 1 cent.
- For binding House and Senate bills, English cloth, per volume, 75 cents.
- For binding the original journals of the House and Senate, half binding, per volume, 5 cents.
- For folio binding, newspaper size, per volume, 10 cents.
- For cutting out pages, per hundred, 10 cents.
- For tipping in pages, plates, maps, etc., per hundred, 10 cents.
- For plain blank books, canvas binding, any size, each \$1.

#### PAPER AND STATIONERY—FOUR CLASSES.

Class 1—Book and cover paper. For the furnishing of this paper three bids were received from the following named persons: Geo. E. Bardeen, Bradner Smith & Co., and Graham Paper Co.

This contract was awarded to Geo. E. Bardeen, at \$1.57½ per ream for 50-pound book paper, and \$1.01 per ream for 35-pound cover paper, he being the lowest bidder.

Class 2—Paper blanks, blank books, etc. For furnishing the paper called for in this class, four bids were received from the following named persons: Graham Paper Co., August Gast Bank Note and Lithographing Co., Whiting Paper Co., and Bradner Smith & Co.

The contract for this class was awarded to August Gast Bank Note and Lithographing Co., it being the lowest bidder.

Class 3—Paper and stationery. For furnishing the articles called for in this class, bids were received from: August Gast Bank Note and Lithographing Co., Illinois Printing Co., J. B. Brown, Jacquin-Oden Stationery Co., The Transcript Co., and Ed. F. Hartman & Co.

The contract for this work was awarded to August Gast Bank Note and Lithographing Co., it being the lowest bidder in the aggregate.

Class 4—For furnishing official letter paper, envelopes and blanks, engraved or lithographed, five bids were received from the following: The Transcript Co., Edwards, Deutsch & Hermann, Eagle Lithographing Co., August Gast Bank Note and Lithographing Co., and J. W. Frank & Sons.

The contract for this class was awarded to August Gast Bank Note and Lithographing Co., it being the lowest bidder in the aggregate.

### COPYING LAWS, JOURNALS, ETC.

For copying laws, journals, etc., bids were received from the following persons: W. H. Hayden, Jr., Stella Dines, Nellie M. Day, Thos. M. Brown and Martha Burke.

The contract was awarded to W. H. Hayden, Jr., he being the lowest bidder.

### DISTRIBUTION OF LAWS, JOURNALS, ETC.

For preparing for distribution of laws, journals, etc., a bid was received from T. M. Brown.

The contract was awarded to said T. M. Brown at \$132 per annum, he being the only bidder.

### FUEL.

Bids for furnishing bituminous coal for fuel were received from the Springfield Coal Mining and Tile Co., Black Diamond Coal and Tile Co., Starne's Coal Mining Co., Capital Coal Co., Springfield Cooperative Coal Co., Springfield Iron Co., and West End Coal Co.

The contract was awarded to the Capital Coal Co., at 79 cents per ton, delivered, it being the lowest bidder.

As soon as the advertisement was published calling for proposals for State contracts, samples of each kind of paper and each article of stationery required, were prepared and properly labeled for the inspection of bidders, in order that they might know exactly what was required and avoid contention.

The paper or articles of stationery delivered on contract must conform to the samples on file in this office.

The contracts and bonds of the different contractors are on file in this office, also a full and complete record of the proceedings of the Board of Commissioners of State Contracts.

**PAVING AND SIDEWALK.**

The 39th General Assembly made an appropriation of \$8,000 for paving one-half the streets surrounding the State House and Executive Mansion and also for the construction of a sidewalk along Charles street on the south side of the State House grounds, the paving to be done on condition the City of Springfield paved the remaining half of the streets named.

The provisions of the act were complied with. I advertised for bids for the work and J. F. Bretz & Sons, the lowest bidders, were awarded the contract for the paving at \$1.06 per square yard, while

J. W. Vance was awarded the contract for the sidewalk at 14 9-10 cents per square foot and for the curbing at 30 cents per running foot.

The City of Springfield working simultaneously with the State contractor, the work was completed in a workmanlike manner. The cost to the State was a little less than the appropriation, the balance, \$58.71, lapsing into the State Treasury. A detailed statement of the money expended will be found under the proper heading in this report.

#### APPROPRIATIONS.

Several of the appropriations under the control of this department have become nearly exhausted and emergency appropriations to carry on the State work till the end of the fiscal year will be necessary.

The appropriation for binding is almost exhausted. The amount appropriated by the last legislature was two thousand dollars per year less than in former years, while the increase of expenditures caused by the creation of new departments, the necessity for rebinding many old books, and the increase in the number of reports ordered by the Board of Contracts, has reduced the balance in this appropriation to almost nothing.

For the same reasons the appropriation for printing paper and stationery has been reduced very much.

The appropriations for lighting, heating and the general care of the Capitol Building are also low. The necessity for wiring the building for electricity, as mentioned in another part of this report, and the large amount expended for necessary repairs has left but a small balance to the credit of these funds. The amount appropriated for the care and custody of the State House and grounds is much too small and it is a constant struggle with the means at his command for the Secretary to keep the State property in a respectable condition.

#### THE GROUNDS.

A great deal of work has been done on the Capitol grounds during the last two years. Several hundred loads of fertile earth have been placed in the spots where the soil was bad, the sod being first removed and then placed on top of the new earth. Additional trees have been planted to take the place of those that had died, while a row of trees along the street line around the entire grounds have been planted,

The stone walks surrounding the grounds are in bad condition and I would recommend an appropriation for removing them and replacing them with new flagging or with cement.

#### CHANGE OF OFFICES.

Several changes of the offices have been made during the past two years. These changes were made necessary by the organization of new departments under acts of the General Assembly.

The 38th General Assembly in creating a State department of insurance directed the Secretary of State to provide such department with suitable rooms. The department was temporarily located in rooms on the first floor belonging to the Treasury department and an attempt was made to have the Agricultural Museum on the second floor removed to the State Fair Grounds in order to make a place for the Insurance department. This attempt having failed the large room occupied by the State Museum of Natural History on the first floor was assigned to the Insurance department, while the Museum was transferred to the third floor, to the room known as the Art Gallery supplemented by three other rooms adjoining. The small room used by the Museum was assigned to the Printer Expert while the room heretofore occupied by the Printer Expert was assigned to the State Board of Arbitration, a department created by the 39th General Assembly.

#### LIGHTING.

In my former report, I recommended an appropriation for the purchase of an incandescent electric plant for the purpose of lighting the building. The legislature failed to make this appropriation and a serious problem was then presented. The gas pipes in the building, through long use and many changes, had become full of leaks, and a thorough examination showed that it would be necessary to replace them entirely if gas was to be continued as the illuminating agent. In some of the offices the leaks had become so bad as to not only produce a serious loss in gas but to render the atmosphere unbearable and dangerous. I finally determined to introduce electricity in place of gas for illuminating purposes and made a contract for the complete wiring of the building. The contract was made with the firm of McCoskey & Holcomb for openings for fifteen hundred, sixteen-candle-power lamps complete, Edison system, 104 volts at lamps, underwriters general requirements. The work when completed, cost \$5,165.00.

This was paid for out of different funds available under the law for such a purpose.

While this expenditure has cut some of the appropriations quite low, yet it is a permanent improvement, and was, under the circumstances, a necessary one.

Power is furnished by the Capital Electric Company of Springfield, Illinois at a fixed rate of \$200 per month. A large part of the work is concealed, but on account of the character of the structure, it was not practical, nor was it within the limits of the money at my disposal to conceal all wires. The open work does not mar the appearance of the building and it is the safest construction by far. The insulation is of the best, being a seamless rubber insulation with a protecting cover, laid on porcelain or in hard wood moulding. All joints are soldered, covered with a rubber tape, Edison sockets, Edison base, key, keyless and wall are used throughout. Chandeliers and wall lights are either controlled by a switch or a push pendant switch where they are out of reach.

In the offices there are side lights or extensions over all desks. The chandeliers were wired to support the incandescent light without affecting their usefulness for gas lighting forming combination fixtures at a small expense. The line is supplied with suitable cut-outs, "main" and "branch," at proper distances, "current" is supplied from the "plant" by two lines, one coming in at boiler house from Monroe street, and the other over House of Representatives coming from Charles street. There is a total of eleven "main" circuits, one circuit is supplied from "transformer" over House of Representatives, one from "transformer" over Senate, one from "transformer" over State library, one from "transformer" over geological museum, one from two "transformers" in south elevator shaft, one from four "transformers" in the north elevator shaft, one from "transformer" in freight elevator shaft, one from "transformer" in basement under dome, one from two "transformers" in basement under south stairs, one from two "transformers" in basement under north stairs, and one from "transformer" on pole on Monroe street in front of boiler house. There is a total of seventeen "transformers" ranging in capacity from thirty-five to ninety sixteen-candle-power lamps. There are in use forty thirty-two-candle-power incandescent lamps, all others being sixteen candle-power. All drop lights are taken from "K. W." ceiling roset cut-outs. "Transformers" are the property and are kept in repair by the firm supplying the power.

Building and "transformers" are protected by safety "primary fuse" boxes, both inside and outside. "Primary" circuits are placed so as to be out of the way and reach of the general public, as they are dangerous, being charged with the current of twenty-two fifty volts. There is a very small percentage loss from "grounds" or "drop" in building. In the warm months small fan motors are supplied with power from line for ventilation. The work and material in all respects for all practical purposes is perfect in every detail.

The electric service has given perfect satisfaction in all of the offices of the building, while the cost per year to the State for lighting has been reduced about thirty per cent. I would recommend an appropriation for the purchase of an engine and dynamos to furnish power for this lighting.

## DONATIONS.

### OLD SALEM.

Miss Kate P. Degge, of St. Louis, Mo., presented the State with a large picture drawn by herself, being a faithful representation of the Mill at Old Salem, Menard County, at one time the home of Abraham Lincoln. The picture was accepted and hangs above the grand stairway leading from the second to the third floor of the State House.

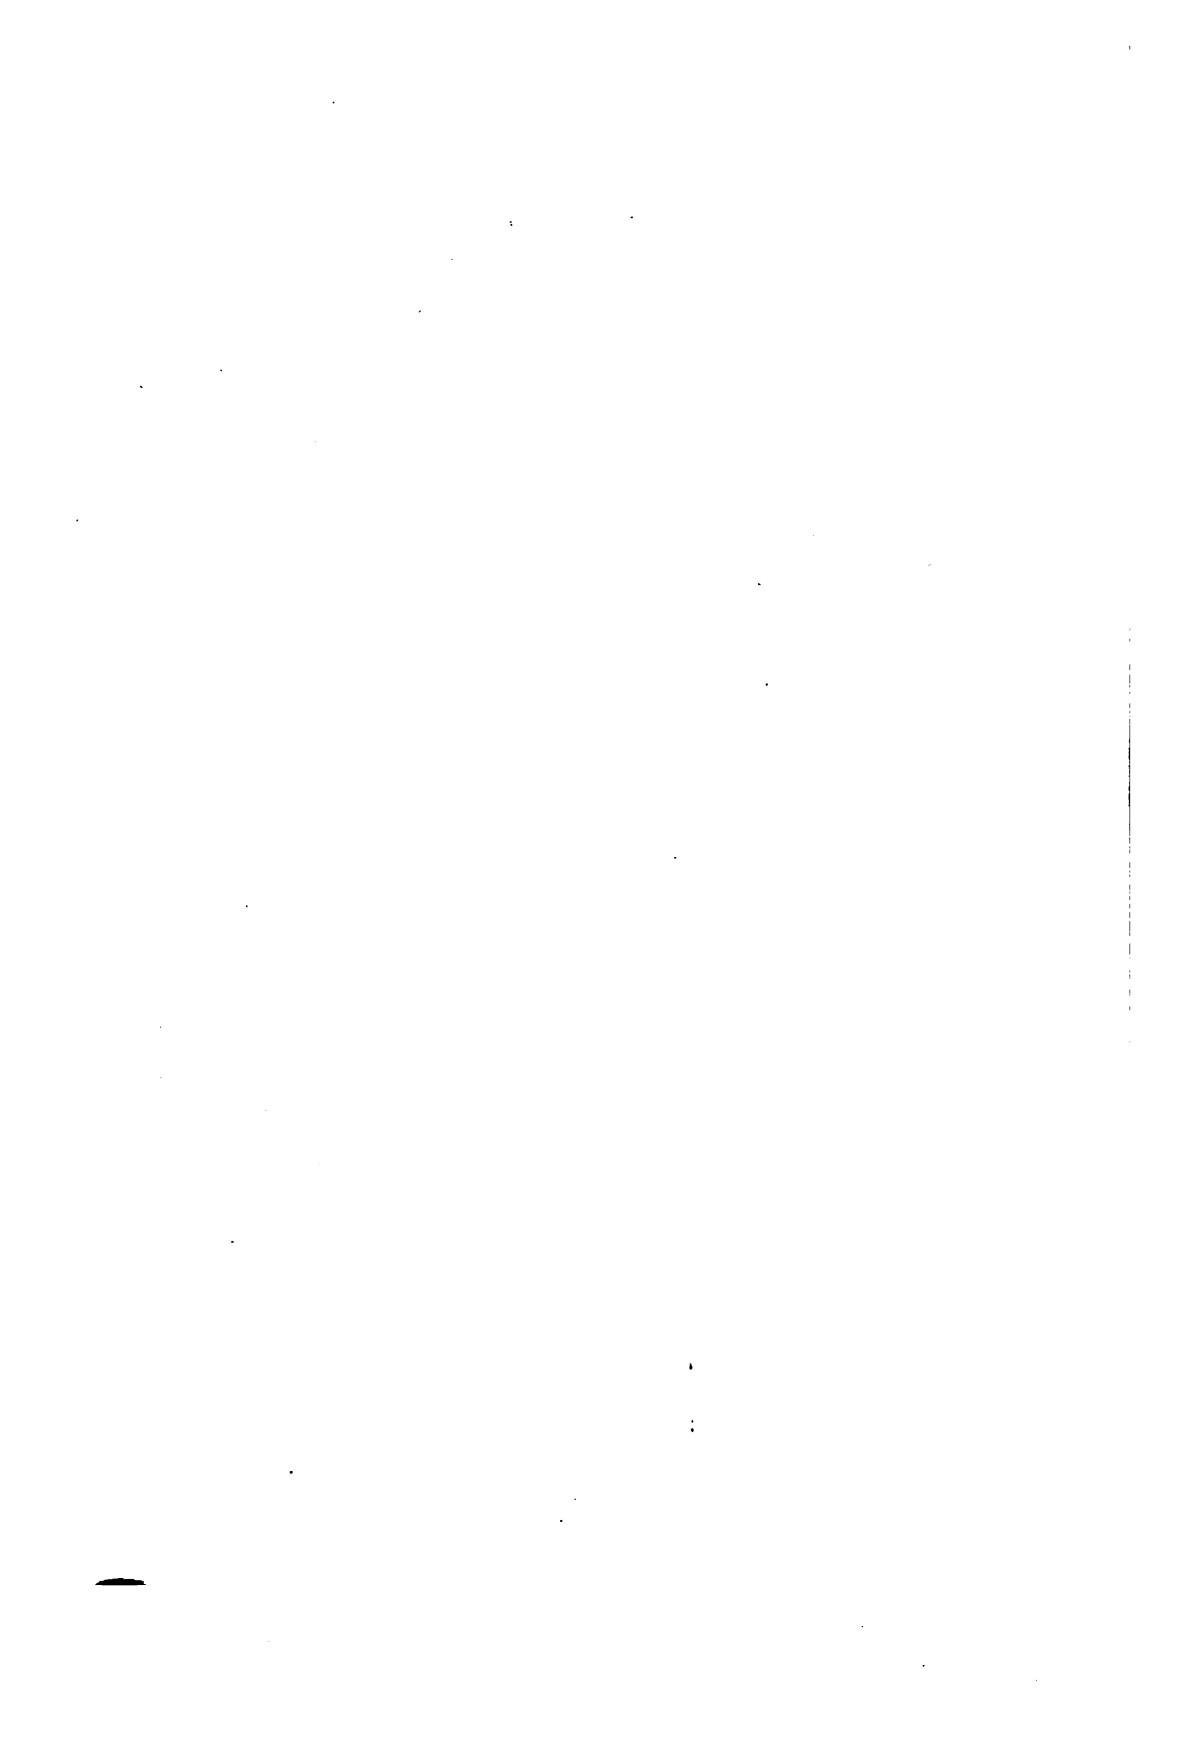

**STATUTE OF ILLINOIS.**

The Illinois Woman's Board of the Columbian Exposition presented the State with a bronze statue, called "Illinois," which was placed in the rotunda of the State House on the first floor.

**FIRE PROTECTION.**

The 39th General Assembly made an appropriation of \$6,000 for the construction of stand-pipes and other necessary apparatus for the protection of the Capitol Building from fire. A plan was made and estimates of the cost obtained, but the condition of the State Treasury has made it necessary to defer closing the contract, so that the appropriation minus a small sum paid out for expenses in getting estimates and plans, remains intact.

*H. K. Winrichson*

Date.	Items.	Amount.
September 6 1895.	Etna Foundry and Machine Co.:	
Aug. 7.	1 $\frac{3}{4}$ -inch A. D. disc.....	\$0 15
Aug. 13.	18 feet 6 inches of 1-inch pipe, at 6c.....	1 11
	1 1-inch A. M. union.....	34
Aug. 15.	6 $\frac{3}{4}$ -inch x 16-inch gauge glasses.....	75
Aug. 21.	Repairing lawn mower.....	1 00
Aug. 26.	2 $\frac{1}{2}$ pounds asbestos board, 75c; 2 pounds sheet rubber, 50c.....	1 25
	Forging and drilling wrought clamps.....	3 00
Aug. 27.	Work on elevator brake.....	1 25
		<b>\$8 85</b>
September 27	Pay-roll for month of September, 1895:	
	August Bartling, chief engineer.....	\$100 00
	L. A. Graham, assistant engineer.....	75 00
	Perry White, assistant engineer.....	75 00
	J. H. McDonnell, weigher.....	60 00
	John Straub, fireman.....	60 00
	Adam Hoff, fireman.....	60 00
	S. Shaughnessy, fireman.....	60 00
	Charles McGuire, fireman.....	60 00
	James Fitzpatrick, fireman.....	30 00
	John Rittman, fireman.....	60 00
	D. A. Boswell, fireman.....	60 00
	James Leak, fireman.....	60 00
	Henry Busher, fireman.....	60 00
	Charles Crum, elevator conductor.....	60 00
		<b>880 00</b>
September 27	Etna Foundry and Machine Co.:	
July 6.	4 lengths of 2-inch pipe, 74 feet 6 inches.....	\$10 26
	4 2-inch caps.....	52
July 11.	1 piece of 2-inch pipe, 9 feet long.....	1 26
	Cutting 2 2-inch threads.....	30
		<b>12 34</b>
September 27	M. Zwickly's Sons:	
	1 box Uncle Tom Tar Soap.....	5 00
October 1	William M. Payne:	
Sept. 2.	1 pair button pliers.....	\$0 75
	Candles.....	25
	Insulated wire.....	10
Sept. 4.	Globe valves and lubricator.....	6 25
Sept. 5.	1 Ball pin hammer.....	1 00
	1 14-inch flat bastard file.....	45
	1 14-inch mill file.....	40
	1 dozen file handles.....	40
Sept. 6.	5 pounds Eureka packing.....	3 00
	1 drill each, 4, 6, 8, 10.....	1 15
Sept. 9.	Braided cord.....	25
	$\frac{1}{2}$ dozen balls wicking.....	25
	Mending torches.....	30
	1 $\frac{3}{4}$ -inch globe valve.....	90
Sept. 11.	2 dozen $\frac{5}{8}$ -inch machine bolts.....	1 70
	2 dozen $\frac{3}{8}$ -inch machine bolts.....	1 20
	5 pounds each $\frac{1}{2}$ and $\frac{5}{8}$ -inch washers.....	50
Sept. 14.	1 pulley.....	15
	2 staples.....	05
	20 pounds nails.....	80
Sept. 16.	1 padlock.....	75
	2 oilers.....	35
Sept. 20.	1 dozen 6-foot handles.....	1 50
	3 bars solder, 6 pounds.....	1 20
	$\frac{1}{2}$ dozen brooms.....	2 00
Sept. 24.	4 pounds Rainbow packing.....	3 20
	Gasket rubber.....	1 25
	1 riveting hammer .....	75
		<b>30 85</b>
October 3	D. A. Stuart & Co.:	
	1 barrel boiler purger, 512-65-447 pounds, at 8c.....	85 76
October 3	James Fitzpatrick:	
	Salary as fireman, October, 1895.....	60 00
October 3	Etna Foundry and Machine Co.:	
Sept. 4.	6 lengths of $\frac{1}{2}$ -inch pipe, 87 feet 8 inches, at 4c	\$3 50
	3 lengths of $\frac{3}{4}$ -inch galvanized pipe, 43 feet, at 7c.....	3 01
